

CRAIG GORDON

Science Educator | AI Education Builder | Curriculum & Product Creator

Natick, MA | Craig.James.Gordon13@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Science educator, AI product builder, and curriculum creator with a background in biology, chemistry, anatomy, nutrition, and healthcare management. Experienced translating complex scientific ideas into clear learning tools, digital products, and polished user experiences. Built and deployed a portfolio of live AI education tools, interactive science apps, resource storefronts, and small business websites using modern web platforms and AI workflows.

CORE STRENGTHS

Science Communication | AI Education Tools | Curriculum and Content Design | Product Thinking | Presentation and Training | Consultative Communication | Relationship Building | Stakeholder Engagement | Differentiation | Data-Driven Instruction | Classroom Technology | Web Product Prototyping | Public Speaking | Biology and Clinical Literacy

LIVE PRODUCT ECOSYSTEM

Portfolio Hub: craig-gordon-hub.vercel.app	Biology Tutor AI: biology-tutor-ai.vercel.app
Teaching Materials Store: mad-scientist-resource-store.vercel.app	Population Dynamics Game: population-dynamics-game.vercel.app

AI, PRODUCT, AND TECHNOLOGY PROJECTS

Craig Gordon Hub: Built and deployed a central portfolio website connecting professional experience, AI tools, education products, live demos, resume access, and contact pathways.

Biology Tutor AI: Built and deployed a live classroom-safe biology tutoring chatbot with branded UI, guided explanations, and a working OpenAI API connection.

Teaching Materials Store: Built and deployed a self-hosted storefront for classroom-tested science resources with product previews, descriptions, testimonials, and manual checkout workflow.

Population Dynamics Game: Built and deployed an interactive ecology game helping students explore population growth, carrying capacity, limiting factors, and ecosystem change.

Career Guidance App: Built and deployed an AI-supported career exploration tool that helps users compare career paths, clarify goals, and generate next steps.

Small Business Website Prototypes: Built and deployed client-style websites for Stoop Dating and Rivera Property Management, demonstrating landing page design, branding, and service-based web presentation.

TECHNICAL TOOLS

ChatGPT | OpenAI API | Next.js | React | Tailwind CSS | Vercel | GitHub | Replit | Google Apps Script | Google Workspace | Microsoft Office | Canva

PROFESSIONAL EXPERIENCE

Biology Teacher | Boston Public Schools, Boston Latin School

Boston, MA | 2025-Present

- Design and deliver rigorous biology instruction that translates complex scientific systems into clear, engaging, and student-centered learning experiences.
- Create polished guided notes, study resources, assessment materials, and AI-enhanced tools that improve usability and reduce friction for learners.
- Use data, student relationships, targeted follow-up, and differentiated supports to strengthen performance, confidence, and retention of core concepts.
- Coordinate with families, administrators, and colleagues to communicate progress, align goals, and maintain strong stakeholder trust.

Anatomy and Nutrition Teacher | Mary Lyon Pilot High School

Brighton, MA | 2024-2025

- Taught anatomy, nutrition, and science courses while building strong classroom culture and maintaining consistent communication with students, caregivers, and colleagues.
- Created hands-on labs, real-world case studies, and differentiated learning materials that helped students connect scientific concepts to practical outcomes.
- Managed lesson delivery, performance tracking, intervention planning, and family outreach across multiple courses and student needs.

Science Teacher | Private, Public, Charter, and Remote School Settings

Greater Boston Area | 2019-2024

- Taught AP Biology, AP Environmental Science, Physics, Chemistry, Marine Science, Remote Biology, and ESL Biology across private, public, charter, and remote school environments, including Malden Catholic.
- Adapted messaging, instruction, and learning materials for different audiences, strengthening communication agility and consultative problem solving.
- Led remote learning efforts during the COVID era by building digital systems and resources that supported continuity, clarity, and engagement.

Founder and Educational Content Creator | Mr. G Mad Scientist

Boston, MA | 2020-Present

- Built an education-focused science brand centered on teaching, aquariums, classroom ecosystems, accessible science communication, and practical learning tools.
- Create digital content, classroom resources, and web-based products that make science more approachable for students, teachers, families, and general audiences.

EDUCATION

Master of Business Administration, Healthcare Management Concentration - Fitchburg State University

Bachelor of Science in Biology, Minor in Chemistry - Salem State University

Associate Degree in Criminal Justice - North Shore Community College

SELECTED HIGHLIGHTS

- Awarded a Cummings Foundation scholarship after completing 500 hours of community service supporting troubled youth.
- Secured classroom and project support through successful DonorsChoose fundraising initiatives.
- Created a live product ecosystem spanning AI tutoring, teacher resources, interactive games, and small business websites.
