## PROFESSIONAL SUMMARY

Science educator and communicator with a strong foundation in biology, chemistry, anatomy, and nutrition, paired with proven strengths in relationship building, presentation delivery, consultative communication, and stakeholder engagement. Experienced translating complex technical information into clear, persuasive language for diverse audiences.

## CORE COMPETENCIES

Relationship Building • Consultative Communication • Presentation & Training • Scientific & Clinical Literacy • Needs Assessment • Objection Handling • Cross-Functional Collaboration • Data-Driven Decision Making • Curriculum & Content Design • Public Speaking • AI & Education Technology • Microsoft Office • Google Workspace • Canva

## PROFESSIONAL EXPERIENCE

### Biology Teacher | Boston Public Schools, Boston Latin School

*Boston, MA | 2025-Present*

- Deliver rigorous biology instruction and high-impact presentations that translate complex scientific concepts into clear, engaging, and action-oriented learning for students and families.
- Use data, relationship building, and targeted follow-up to drive student performance, improve retention of key concepts, and support a high-expectations learning culture.
- Design polished instructional materials, guided notes, study resources, and AI-enhanced tools that improve user experience and simplify technically dense content.
- Coordinate with families, administrators, and colleagues to align goals, communicate progress, and ensure strong stakeholder trust and responsiveness.

### Anatomy and Nutrition Teacher | Mary Lyon Pilot High School

*Brighton, MA | 2024-2025*

- Taught anatomy, nutrition, and science courses while building strong classroom culture and maintaining consistent communication with students, caregivers, and colleagues.
- Created hands-on labs and real-world learning experiences that increased engagement and helped learners connect scientific concepts to practical outcomes.
- Managed multiple priorities simultaneously including lesson delivery, performance tracking, intervention planning, and family outreach.

### Science Teacher | Public, Charter, and Remote School Settings

*Greater Boston Area | 2019-2024*

- Taught AP Biology, AP Environmental Science, Physics, Chemistry, Marine Science, Remote Biology, and ESL Biology across diverse school environments.
- Adapted messaging and instruction for different audiences, learning needs, and settings, strengthening communication agility and consultative problem solving.
- Led remote learning efforts during the COVID era, building systems and digital resources to maintain continuity, clarity, and engagement.

### Founder & Educational Content Creator | Mr. G Mad Scientist

*Boston, MA | 2020-Present*

- Built an education-focused science brand centered on teaching, aquariums, classroom ecosystems, and accessible science communication.
- Create engaging digital content that makes science more approachable for students, families, and general audiences.
- Use content creation as a channel for education, communication, and brand building.

## AI, TECHNOLOGY, AND PRODUCT PROJECTS

**Craig Gordon Hub:** Built and deployed a professional portfolio website showcasing AI-powered learning tools, science apps, teaching resources, and professional experience.

**Career Guidance App:** Built and deployed a live AI-supported career exploration tool designed to help users compare career paths, clarify goals, and generate realistic next steps.

**Science Office Hours:** Built and migrated an AI biology study assistant designed to support student thinking through guided questions and classroom-safe explanations.

## EDUCATION

**Master of Business Administration, Healthcare Management Concentration** - Fitchburg State University

**Bachelor of Science in Biology, Minor in Chemistry** - Salem State University

**Associate Degree in Criminal Justice** - North Shore Community College

## SELECTED HIGHLIGHTS

- Awarded a Cummings Foundation scholarship after completing 500 hours of community service supporting troubled youth.
- Secured classroom and project support through successful DonorsChoose fundraising initiatives.
- Experienced with AI tools and classroom technology integration, including building and refining education-focused chatbot concepts and web resources.
